**STATEMENT ON BOKO HARAM MASSACRES IN THE LOCALITY OF
NGUETCHEWE IN THE MAYO TSANAGA DIVISION**

According to several corroborating sources, elements of the terrorist organisation Boko Haram made a violent incursion in the locality of Nguetchewe, in Mayo-Moskota, Mayo Tsanaga Division, on the night of 1st to 2nd August 2020, causing more than twenty deaths, serious injuries, and destruction of many material possessions.

The Cameroon Renaissance Movement (CRM) extends its saddened condolences to the hard-hit families and its compassion to the injured. It strongly condemns these acts of barbarism which shock the conscience and constitute serious crimes under both our laws and international legal instruments.

The CRM reiterates that it is extremely urgent that the security of people and goods be strengthened in areas exposed to recurrent attacks.

The Cameroonian people are helplessly witnessing the undermining of peace and security under the illegitimate and incompetent current regime. We would like to let the regime know that it is possible to restore the peace and stability that our country once prided itself on. The advent of the rule of law and governance devoted to the protection and development of all Cameroonian citizens without any discrimination will lead us there. Let's stay confident, but always alert!

Yaoundé on this 4th August 2020

The President-Elect

Maurice KAMTO
