

STATEMENT ABOUT THE VIOLENCE EXERCISED ON MR. STEVE FAH

A video circulating on social media shows a scene of violence against Mr. Steve Fah, a well-known actor in this media, as he peacefully holds a meeting in a room.

This scene, shocking in its brutality, testifies to the growing aggressiveness in our society. It is totally unacceptable. I strongly condemn, once again, such violence against a peaceful citizen, and address to Mr. Fah, on behalf of the Cameroon Renaissance Movement (CRM) and in my own name, our message of compassion and our wishes for a speedy recovery in case he was injured.

The violence shown in this video is contrary to our deep convictions and to the fundamental political option of our party, which is tolerance and change in peace.

I have always condemned the language excesses of some of our compatriots, particularly in social media, expressed through hateful, tribalist or contemptuous remarks, as well as intolerance, in this case political, manifested by acts of physical violence.

I reiterate that any denunciation must be done without contempt, that any political or opinion disagreement must be expressed through words and with respect for the physical integrity and dignity of others.

Any perpetrator of an act of violence against a peaceful citizen, whether or not he is a member of the Cameroon Renaissance Movement, is unworthy of the National Resistance and cannot act in my name or that of our party, the CRM.
