PUBLIC RELEASE

I have learnt with deep sorrow of the tragedy of the death of several students of a school in a serious traffic accident on Friday 31 March 2023 on the Ombe road in the South-West Region. I send my deepest condolences, as well as those of the Cameroon Renaissance Movement (MRC), to the families of the victims of this hecatomb. I wish the injured a speedy recovery. I call on the Government to open a judicial and technical enquiry to understand what really happened, in order to draw all the necessary consequences to curb the scourge of fatal accidents on the country's roads in general. I also appeal to the government and the competent authorities at all levels for a better supervision of school buses in particular and adequate protection of our children on their way to school.
